WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME DISC OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

▲ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions	Eye or muscle twitching	Loss of awareness
Altered vision	Involuntary movements	Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

▲ WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendinitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

Options

Controller

Here you can either adjust the Control Stick or enable/disable the Rumble Feature for all connected Controllers.

● Control Stick adjustment

Adjusts the Control Stick positions. For all connected Controllers, move the Control Stick around. This will determine the Control Stick value at all eight corners, and adjusts accordingly for you to play normally.

● Rumble Feature

You can enable or disable the Rumble Feature separately for all 4 Controllers. Select the Controller and press the **A** Button. Then select either ON or OFF, and press the **A** Button again.

Game Screen

Here you can adjust how the game is displayed on your TV set.

● TV monitor

You can select the horizontal/vertical ratio of the screen to be displayed on your TV monitor (4:3 Normal/16:9 Wide/Letterbox).

● Split Screen

On some multiplayer games with simultaneous play, the screen will be divided into four areas for 3 or 4 players (two areas for 2 players). With 3-player game, you can either choose to have one wide area for a selected player, or have Live Action Camera displayed on vacant space.

Sound

Here you can change the sound output of the game between Stereo and Monaural.

⚠ WARNING - Electric Shock

To avoid electric shock when you use this system:

- Use only the AC adapter that comes with your system.
- Do not use the AC adapter if it has damaged, split or broken cords or wires.
- Make sure that the AC adapter cord is fully inserted into the wall outlet or extension cord.
- Always carefully disconnect all plugs by pulling on the plug and not on the cord.
- Make sure the Nintendo GameCube power switch is turned OFF before removing the AC adapter cord from an outlet.

⚠ CAUTION - Motion Sickness

Playing video games can cause motion sickness. If you or your child feel dizzy or nauseous when playing video games with this system, stop playing and rest. Do not drive or engage in other demanding activity until you feel better.

⚠ CAUTION - Laser Device

The Nintendo GameCube is a Class 1 laser product. Do not attempt to disassemble the Nintendo GameCube. Refer servicing to qualified personnel only. Caution - Use of controls or adjustments or procedures other than those specified herein may result in hazardous radiation exposure.

CONTROLLER NEUTRAL POSITION RESET

If the L or R Buttons are pressed or the Control Stick or C Stick are moved out of neutral position when the power is turned ON, those positions will be set as the neutral position, causing incorrect game control during game play.

To reset the controller, release all buttons and sticks to allow them to return to the correct neutral position, then hold down the X, Y and START/PAUSE Buttons simultaneously for 3 seconds.

Hardware Setup

Super Monkey Ball 2 is a one to four player game. Connect the Nintendo GameCube™ Controllers to the Controller Sockets 1, 2, 3 and 4 (depending on the number of players participating; see next page).

Using Progressive Scan TV

This software is compatible with Progressive Scan video output, using the Component Cable (sold separately). Please refer to the instruction manual of Nintendo GameCube™ for the directions on how to connect.

- 1 Connect your TV set and Nintendo GameCube™ with the Component Cable.
- 2 Place the Super Monkey Ball 2 disc inside the GameCube™, close the Disc Cover, and press the POWER Button.
- 3 After the Nintendo GameCube™ logo is displayed, press and hold the **Ⓚ** Button.
- 4 You will be asked whether to display in Progressive Mode. Select "Yes" and the game will be displayed with Progressive Scan output.

Once the Progressive Mode is selected, unless the video cable is changed, the Display Mode Select Screen will be displayed each time the power is turned on, without pressing the **Ⓚ** Button. Also, depending on the type of television set you are using, the horizontal/vertical ratio of the screen may be changed.

Save Files

Super Monkey Ball 2 is a Memory Card compatible game [Nintendo GameCube™ Memory Card (sold separately)]. 2 blocks of free memory are needed to save game files, and at least 2 blocks for each replay file.

When you start the game, the game will look for the game file. If there are no Memory Cards inserted, the game will warn you and ask if you would like to Retry (insert the Memory Card first) or Continue without saving. If the Memory Card does not contain a game file, the game will ask you either to continue without loading (create new file), to retry, or to choose a Slot. If two Memory Cards, both containing the game file, are found, the game will ask you which to be used. Follow the on-screen instruction to start the game.

When the game file is being saved, manually or automatically, a message will be displayed to notify that such action is taking place. Never turn OFF the Nintendo GameCube™ power or remove the Memory Card while the game data is being saved or loaded.

● Scoring in Tennis

In Tennis, first three points are named 15, 30, 40 respectively. Unless the score is tied at 40, the player who scores the fourth point wins the game. If the game is tied at 40 (called **deuce**), you must take the next two points to win the game.

● Winning a Set

To win a set, you must win the predetermined number of games with at least a two game difference. If there is only a one game difference, you must win one more game.

● Tie Break

If the number of games won is tied at the predetermined number of games needed to win the set, the set goes into a Tie Break.

In a Tie Break, the first player who reaches 7 points with at least a two-point difference wins the set. If the score is still tied at 7, the Tie Break will continue until one player takes a two-point advantage to win.

Note: If Tie Break is disabled in Gameplay Settings, the game will continue with normal rules until one player takes the next two games.

● Tennis Rules

The game starts by serving the ball (either **A** or **B** Button). Return the ball to the opponent's side of the court. You win a point if the opponent cannot return the ball. You lose a point if you hit the ball out.

● Smash Mark

At times, there will be a Smash Mark displayed on the ground. Stand on the mark and hit the ball to make a powerful smash.

Nintendo GameCube™ Controller

Multiplayer Game – Simultaneous or Alternating

With some modes, more than one player can enjoy the game, simultaneously or alternating. With simultaneous play, each player uses his/her own controller to play. Connect the same number of controllers as the number of players participating.

When you select the number of players participating in the games with simultaneous play, you can only select up to same number of controllers currently connected.

With alternating play, each player takes a turn playing. Therefore it is possible that more than one player can use the same controller to play. During the Character Select Screen, use the controller you are going to use to select the character.

Basic Game Controls

Except for a few games, use the Control Stick to move the monkey in a ball. Detailed Button functions will be explained in each game. Press START/PAUSE during the game to pause the game and display the Pause Menu (p.10).

Menu Controls

- Control Stick** Select menu item; change settings.

B Button Cancel.

Use the Control Stick \blacktriangle \blacktriangledown to select menu item, and press the A Button to allow changes. Next, use \blacktriangleleft \blacktriangleright to change setting, and press the A Button to finalize the change.

Name Entry

With some modes, you will be asked to enter your name, if your score (or time) is within the top 5, or when you break a lap record. Use the Control Stick \blacktriangleleft \blacktriangleright to select a character, and press the A Button to enter. You may enter up to 6 letters. When done, select END.

Lesson Screens

You can access the Lesson Screens of the selected mode by pressing the X Button during the Main Game Select or Party Game Select Screen. It can also be accessed during the game by selecting **How to play** from the Pause Menu (see p.10).

The Lesson Screens displays the button functions, rules, and item descriptions. Use the Control Stick \blacktriangleleft \blacktriangleright to change pages. Use the C Stick to enlarge/move the screen (release the C Stick to bring the screen back to normal; you may also press the L Button to enlarge). When done, press the B Button to return to the previous screen.

Options

You can change game settings, load/save data, or view saved replays.

Basic Flows of the Game

Except for Monkey Target 2 and Monkey Shot, each game contains various modes. Select the mode to play in.

If the mode selected is for one or more players, select the number of players to participate. In modes with simultaneous play, you can only select up to the same number of Controllers connected.

Select, if available, the characters you wish to use. For modes with alternate play, select with the controller you are going to use. In some modes, you will also specify COM characters.

Finally, customize the gameplay settings. When you are done, select Game Start to begin the game.

Some modes may lack one or more of the above steps, and some may have an extra step or two. These will be explained under each game description.

● You're at Bat

Use the Control Stick to move the batter's position within the batter's box. After the pitcher pitches the ball, time it correctly and press the **A** Button to hit the ball. Remember, as in real baseball, a foul ball is a strike, but it cannot be a third strike.

When the batted ball rolls into a pocket with numbers (1BH, 2BH, 3BH), the batter (and runners on base, if any) advances the same number of bases. You score a run when the runner crosses Home Plate. Roll on the ramp and out of the stadium, it's a home run. If the ball rolls into the Out pocket, you're out.

● 10-Run Mercy Rule

You can enable or disable the 10-Run Mercy Rule in the Gameplay Settings. When this is enabled, the game will be called on the following conditions:

1. At the bottom of any inning, the home team (team hitting second) scores to make 10-Run lead.
2. At the end of any inning, the visiting team (team hitting first) leads by 10 runs or more.

Note: Apart from the 10-Run Mercy Rule, there is a 99-run limit (by one team) to the Monkey Baseball. Regardless of the 10-Run Mercy Rule setting, the game will automatically be called when the 99th run is scored by either team.

● Extra Innings & Draw Game

The game will go into extra inning if the score is tied at the end of predetermined innings. In this game, however, the game will be declared draw if it is tied at the end of 12th inning.

Main Characters

AIAI

The hero of this game. He loves bananas so much that he always spends his carefree life thinking "The banana I had today was really delicious." Eat bananas, and he'll be in high spirits, able to overcome any hardship. Chanting a magical spell "Ei-Ei-Poo," he starts his adventure with Monkey Ball.

MEEMEE

She is the future bride of Aiai. Unlike carefree Aiai, she is a person...umm...monkey with firm character. Although she loves Aiai more than anything else in the world, it seems that Aiai loves bananas more than her. And that makes her a little discontent. A little bit tomboyish, she is very kind to everyone on Jungle Island. She always decorates herself with flowers that have a nice scent.

BABY

He came from the future to stop Dr. Bad-Boon's plot to prevent the marriage between Aiai and Meemee. He is in fact the son of Aiai and Meemee. He rarely cries, but once he does, he cries with the loudest voice on Jungle Island. Only Meemee can stop his crying.

GONGON

Yesterday's enemy is today's friend. He used to be Aiai's rival, but now they are best friends. He is quite rowdy, but places such a great value on friendship that once he becomes a friend he never betrays. Although he still is not big in size, he has great strength, as he trains himself every day to become the strongest monkey in the world.

With Story Mode, you control Aiai. With Challenge Mode, Practice Mode and each mode of the Party Game, you can select from the four monkeys above.

The Enemies

DR. BAD-BOON

He is an evil-genius scientist from the future world. In the future world, he fell in love with Meemee and attempted to ask her to marry him, but she was already married to Aiai, and had had Baby by then. Thus he flew back in time to the days when Aiai and Meemee had not married yet. Dr. Bad-Boon tries all sorts of evil plots to separate Aiai from Meemee, but fails every time. While his perseverance is commendable, he is becoming a real nuisance to the inhabitants of Jungle Island, and has quickly become the island's most hated ape.

DR. BAD-BOON'S ASSISTANT

An ape without words. Other than being Dr. Bad-Boon's assistant, everything about him is covered with mystery. Even Dr. Bad-Boon doesn't know his name. Like a shadow, he follows Dr. Bad-Boon wherever he goes. Cold-hearted Dr. Bad-Boon would leave him behind and escape, but still he continues to be his assistant without any complaints. He appears to be very frightening, but in reality he is very bashful.

Play Points

With Story Mode and Challenge Mode (when played by 1-player only), you earn a certain amount of Play Points depending on your performance within the game.

Play Points can be used to unlock some of the Party Games by spending certain amounts. Earn as much as possible and unlock them all!

First, select from the three available Save Files. If you select the blank (open) data, you will start from the beginning. You will be asked to enter your name.

If you select the data with previous gameplay, you will continue from where you left off.

There are 10 worlds in the mode, and each world has 10 stages which you can select and play in any order. When you clear all 10 stages, a movie clip can be seen, and a brand new world becomes available.

There is no "Game Over" in this mode, so you can try as many times as you want until you clear the stage.

Press the **Y** Button to change the item to be used. When a fourth item box is picked up, the bottom item will automatically be dropped. With Time Attack Mode, however, no item boxes appear, but you are given 3 Speed Stars to start with. Use them wisely.

Types of Items

Speed Star

Increase your speed for a limited time.

Big Ball

Your ball becomes big enough to prevent almost any attack from other opponents for a limited time.

Banana Peel

Drop a banana peel on the ground. The player rolling over it will slip.

Bowling Bomber

- Y Button** Press and hold to view from the top.

● Taking Flight

First, guide the ball to roll down the ramp. Press the A Button to open the ball and expand the wings. If you open too soon, you may not have enough momentum to reach the target. If you don't open it, the ball will sink into the sea.

● Glide

In midair, use the Control Stick to guide your monkey(s). Be careful not to lose your momentum, or you may not reach the target. Remember also to take wind into account when gliding.

● Items

In the air, there are various items that will help you earn higher points. Except for bananas, these items will not appear if the Items option is turned OFF in the Gameplay Settings.

Types of Items

Brake Ball

Slows you down more quickly upon landing, with less roll.

Magnet Ball

You will stick to the exact spot you landed.

Lucky Star

Gameplay Settings

Play against the COM in a tournament with varying modes. Try and see how far you can get!

● US 9 Ball — Rules

US 9 Ball is played with 2 players. You will play against either the COM or another player.

Which Ball to Hit

You must hit the ball with the lowest number on the pool table.

Turns to Hit

As long as you hit the lowest-numbered ball first, any ball can be sunk into the pocket. You will continue your turn until you either miss or make a foul.

Foul

If the cue ball drops into the pocket, it is called a foul. If the first ball hit is not the lowest-numbered ball, this is also a foul. The next player can place the cue ball anywhere on the pool table to take his turn.

Sink the 9 Ball to Win

Your main objective is to sink the 9 Ball. As long as the lowest-numbered ball is hit first, you may sink the 9 Ball with a combo shot for the win. If the 9 Ball is sunk while you make a foul, it is placed back on the table.

● Throwing the Ball (Continued)

Next, determine the strength to throw the ball. Look at the power gauge, and press the **A** Button at the correct time to throw.

As you approach the Foul Line, you can add spin to the ball with the **L** or **R** Buttons. The amount of spin depends on how long the **L/R** Buttons are pressed.

● Scoring

With normal rules, you have two throws to knock 10 pins in a frame, and the number of fallen pins are added to your score.

If you knock all 10 pins on your first throw (Strike), the number of pins knocked on your next two throws will also be added as bonus. If you knock all 10 pins with two throws (Spare), the number of pins knocked on your next throw will be added.

If you get a Strike or a Spare on the 10th and final frame of the game, you will be allowed to take extra throw(s) (2 or 1, respectively) to fulfill the bonus points.

● JPN 9 Ball — Rules

Japanese 9 Ball is played with 4 players. COM players will play the vacant places, if any, to fill in.

Play for Points

Each player is given 20 points to start the game. The player with the most points after all sets are finished wins the game.

Scoring

You get 1 point from each player if you pocket the 3, 5 or 7 Ball, and 2 points if you pocket the 9 Ball. You get double points if these balls are sunk into side pockets.

Which Ball to Hit

As in US 9 Ball, you must hit the ball with the lowest number on the pool table, but you may sink any numbered balls. The 3, 5, 7 and 9 balls will, however, be placed back on the table if they are sunk before their order.

Turns to Hit

You will continue your turn until you either miss or make a foul.

Foul

As in US 9 Ball, it is a foul if a cue ball is sunk or when the lowest-numbered ball is not hit first. Any ball sunk will be placed back on the table.

Sinking the 9 Ball

When the 9 Ball is sunk in its proper order, and if the cue ball stops at the breaking area of the table, the same player breaks the next set from the same spot. Otherwise, the next player breaks.

● Rotation — Rules

Rotation is played with 2 players. You will play against either the COM or another player.

Play for Points

You earn the same amount of points as the number indicated on the ball you sink. You win the set if your score reaches more than 60 points.

Which Ball to Hit

You may sink any ball on the table, provided that you hit the lowest-numbered ball first.

Foul

It is a foul if the cue ball is sunk or when the lowest-numbered ball is not hit first. Any balls sunk will be placed back on the table.

● 8 Ball — Rules

8 Ball is played with 2 players. You will play against either the COM or another player.

Which Ball to Hit

The balls are divided into two groups: Solids (1~7 Balls) and Stripes (9~15 Balls). After the break, you will be assigned to sink the balls of the same group you sank first, and the other player sinks the others.

If the Next Ball Indicator displays OPEN (either no ball has been sunk yet, or balls of both types have been sunk), you may sink the balls of either group. Look at the balls and decide which group is advantageous.

Foul

If the cue ball drops into the pocket, or if the cue ball hits the opponent's ball first, it is a foul. The next player can place the cue ball anywhere on the pool table to take his turn.

Sinking the 8 Ball

Except when breaking, if the 8 Ball is sunk before all your balls are sunk, you will lose the set. You must sink all your balls in order to earn the right to sink the 8 Ball. If the 8 Ball is sunk on the break, the game will continue with the 8 Ball placed back on the table.

When sinking the 8 Ball, you must also call the pocket to sink. If you sink the 8 Ball into the pocket you didn't call, you will lose the set. Aim carefully and sink the 8 Ball into the pocket you called to win!
