4. OPERATING THE ZAPPER

Target range: Approximately 6 feet

* The target range depends somewhat on the size of your TV.

Adjusting the TV screen

* The TV screen must have its contrast and brightness adjusted properly for this game. If not, shots may not hit the targets.

Starting / Continuing the Game

* Pull the trigger on the Zapper to start your game. If you lose all of your energy, the screen will read "CONTINUE." Pull the trigger on the Zapper and your game will start you at the beginning of the level that you were on.

Note: You only get two continues per game.

5. HOW TO PLAY

- * Your object is to destroy as many enemy ships as possible and destroy the missiles that the enemies shoot at you.
- * You gain extra energy when you shoot down an enemy ship
- * You lose energy if you get hit by an object or if you shoot at an enemy and miss.
- * If you lose all of your energy, your game will be over.
- * If you shoot enough enemy ships in a row while your energy is 100%, you will be rewarded with a Smart Bomb. If you have a Smart Bomb, an indicator will appear in the lower right of the screen. Shooting this indicator with the Zapper will activate the Smart Bomb destroying all enemies on the screen (except for the enemy bosses at the end of each level.)
