## A LAND DIVIDED

The continent of Tellius is home to two races—the beorc and the laguz. The human beorc are made in the image of the goddess, while the half-human laguz fill the space between the goddess and beasts. As each race has struggled to find its place in the land, the two have built a shared history of strife, mistrust, and compromise. As of this moment, Tellius comprises seven nations that enjoy relative harmony and peace. However, unnoticed by all, riot, mayhem, and murder lurk in encroaching shadows...

### Ike ❁

Ike is the son of Greil, who commands a renowned mercenary company known as the Greil Mercenaries. Though young and inexperienced, Ike is determined to hone his sword-fighting skills and pull his weight as a member of the troop. He is a man of few words, but his heart burns with passion.

### Mist ❁

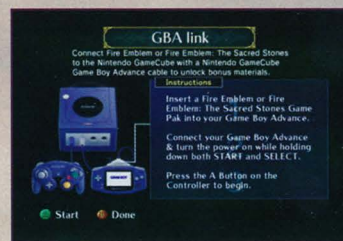

Ike's little sister. She is a cheerful young girl who enjoys helping others, and supports the company by doing all sorts of errands. She carries an old medallion as a memento of her deceased mother.

## THE BASICS

Fire Emblem: Path of Radiance is a role-playing strategy title set against a background of terrible warfare and unimaginable courage. Select your party members, deploy them with care, and defeat the enemy to bring lasting peace to Tellius.

### Game Flow

This game is divided into chapters, and you must complete each chapter to progress through the game. Chapters can be broken down into the following steps: Story events, base preparations (starting at Chapter 8), more story events, combat preparation, actual combat, completion or failure of map objectives, end of chapter. (For more on map objectives, see page 16.)

### Armies

The individual characters that appear on screen are called units. You can see which army a unit belongs to by looking at the color of the circle surrounding it. (Note that this circle turns gray after a unit has completed an action.)

### Turns

This game is divided into turns. Each turn is made up of phases that occur in the following order: Player phase, Partner phase, Enemy phase, and Other phase. You can give orders to your units during the Player phase only.

### Winning and Losing

When units lose all of their HP (hit points), they vanish from the map. Units can recover HP by using vulneraries or other healing items, resting on a healing space, or by using a healing staff. If one of your units falls in combat, he or she will be lost to you forever and the game will continue. If, however, Ike falls in combat (or if you fail to meet a map objective), your game will end. If that happens, try playing the chapter again using your most recent save data.

## ❁ Boyd

A member of the Greil Mercenaries. He's Oscar's younger brother, and the second-oldest of three brothers. Boyd could care less about the details or the odds—he just wants to fight.

## SAVING YOUR GAME

You can save your game progress by choosing either Save or Suspend. You can have up to 5 saved data files on one Memory Card.

### When to Save

After Finishing a Chapter... The save-data screen appears automatically after you clear a map. Simply choose a file and save your progress.

You can purchase items at bases, find them in treasure chests, receive them as gifts, or take them from defeated enemies. Most items have a limited number of uses (known as item's durability). Magic and bows lose durability even if they miss an enemy, but all other weapons must make a successful strike.

### Items

### Unit Class

EX  
(Current experience points)

Before a battle, you can manage your army from either the base menu or the combat preparation menu. The base menu becomes available after Chapter 7.

## The Base Menu

Bases are the place to check your units and make sure they are properly equipped before a fight. If you want more info about the base menu options, use the in-game help window.

## Manage

There are two parts of the Manage screen. Award Exp lets you distribute bonus EP you gained in battle, while Skills lets you assign and remove skills as they become available.

- ◆ You cannot remove unit-specific skills.
- ◆ You can only assign as many skills the unit's skill capacity allows.

## Combat Preparation Menu

The combat preparation menu appears on the map screen before a battle, and allows you to manage your army and change a variety of options. Use the in-game help window if you want more details about the menu.

## UNIT TYPES

The world of Fire Emblem: Path of Radiance is populated by two races—the beorc and the laguz. But units of the same race have different abilities and weapon preferences, depending on their type. Consider these factors when entering combat so you are prepared for anything.

### Beorc and Laguz

Your units will be either beorc or laguz. The beorc, whose name means “seed of knowledge,” use weapons and magic in combat. The laguz, whose name means “seed of power,” transform into birds and beasts, and attack with razor-sharp claws and talons.

### Beorc Units

	Ranger	A well-balanced unit who specializes in swords of all kinds. Ike is the only Ranger in the game.
	Hero	A brave champion who possesses superior leadership skills. Can use both swords and axes.

	Halberdier	A soldier who has changed classes. Can handle even the most unwieldy lances and spears with ease.

### Controlling Units

Want to make units fight? Here's how!

2. The unit menu appears automatically once the unit has moved. Select Attack, then choose the item or weapon you want to use and confirm the choice.
3. Finally, the combat-information window appears. Choose the enemy you want to attack and confirm your choice to start the battle.

Your unit gains Exp (experience points) after the battle. The better the result, the more Exp gained.

Once every unit has been given orders, the Player phase ends automatically. To end the Player phase before issuing orders to every unit, select End from the map menu. (See page 16.)

### Movement and Attack Ranges

A unit's movement range is displayed in blue, while its attack range is displayed in red. You can check and lock enemy range displays on, too.

- ◆ Different types of terrain can reduce your movement range.
- ◆ On terrain where height is a factor, there are certain situations where units cannot attack other units.
- ◆ Mounted units can cross the remainder of their movement range after they attack or perform another command.

### Leveling Up

As units earn Exp, they gain levels and eventually change classes. Experience points are gained by engaging in combat, using staves, and performing other specific actions. Units automatically gain a level whenever they earn 100 Exp. Most units automatically change class when they reach Level 21.

### Unit Skills

### Transform Gauge

Laguz do not use weapons, relying instead on natural combat skills. However, laguz can only attack while in animal form. The transform gauge shows how close a laguz is to entering animal form. When it is full, the laguz will transform into a beast and gain the ability to attack, at which point the gauge will gradually decrease. Once the gauge is empty, the laguz will revert to humanoid form and the gauge will begin to fill anew.

# The Third Status Page
