OBJECT OF THE GAME/GAME DESCRIPTION

Nintendo Golf lets you choose your clubs, change your stance, control your swings — even select the angle of impact on an 18 hole championship course. You view the course from both a close-up and overview perspective as you move down the fairway. Select 1 or 2 player stroke play or 2 player match play for the most exciting tee to green competition.

Please read this instruction booklet to ensure proper handling of your new game, and then save the booklet for future reference.

3. Impact

Swing meter

- **Straight, slice and hook shots:** If you impact the ball when the swing meter is on the white line, a straight shot will be hit. If it is to the left of the line, the ball will slice. If it is to the right, the ball will hook.
- **Super shots:** If you use the #1 wood (1W), and start the downswing with the swing meter on the extreme left, and impact the ball with the swing meter on the white line with just the right timing, a super shot (306 yd) can be hit.

b) Direction the ball is hit in

- The ball will be hit toward the target mark (+) on the screen. Before putting, use the  control pad to aim the target mark in the desired direction.

c) The "roll" of the green

- The (v) mark on the green indicates the grain of the turf. The roll of the putt will change according to the conditions of the turf.

[Rules] Note that some rules differ from real golf rules.

- If a ball goes OB (Out of Bounds), you are penalized 2 strokes and the ball is played from where it was lying before you shot it OB.
- * When a ball goes into the woods, it is usually considered OB. (There are exceptions to this.)
- * Ponds on the 5th, 8th, and 18th holes are OB.
- * If the ball goes off the screen, it is considered OB — no matter what hole it is.
- The ocean, ponds, rivers, etc., are considered water hazards. If a ball lands in one of these, you are penalized 1 stroke and the ball is played from a set location.
- The flying distance of a bunker shot is calculated as half that of a fairway shot.
