3. HOW TO PLAY

All sorts of characters (turtles, crabs and fighter flies) come out of the pipes. You can knock them over by punching them from below, but that only stuns them. To get rid of them for good you then have to kick them. Freezies and fireballs also come at you with all kinds of attacks.

* Only Mario appears in the 1 player game. Both Mario and Luigi appear in the 2 player game.

Team play: Here you cooperate with each other. One player punches the enemy down, and the other finishes him off by kicking him. The game proceeds quickly and you can expect a high score. This is the perfect game for players that are good at team work.

Competition: Ruin the other player's plans and play tricks on him. Make your opponent get killed by a bad guy: When your opponent attempts to kick a fallen bad guy, punch from below and help the bad guy up . . . or send your opponent flying toward a bad guy by punching him from below or pushing him. (If you get pushed, escape by jumping.)

How do you play?

The game involves punching the bad guys that fly out of the pipe and then kicking them. When the bad guys are punched, they fall over backwards and remain stunned for a certain period of time. After that, however, they get up (if you let them) and renew their attack even faster because they are mad at you.

Techniques

Turtle

- Down after 1 punch.

Crab

- Irked after the first punch, it goes down after the second.

Fighter Fly

- Punch it just as it lands. Down after 1 punch.

Note: A downed character gets up if punched from below. If the character gets up on its own it moves even faster than before. The last remaining character also moves extra fast.

Punching from behind

- Knocks the character down to a lower level.

Punching from below

- Repeat-punching keeps the character from advancing.

Punching from ahead

- The turtle is temporarily thrown back.

- Punch the POW and the characters on all the floors are knocked over. They will get up eventually, so be careful. Things like fire balls disappear.
Note: The POW disappears after it is hit 3 times.

- The freezies attempt to freeze the floors. Once frozen, Mario (and Luigi) will slip and can't stop very easily. Punch the freezies early to break them up.

- Mario (and Luigi) can walk through the left edge of the screen to reappear on the right, and vice versa.

Scoring

* Extinguishing fireballs

Punch the fireballs when they hit the floor and get high scores. Beware! Revived red fireballs are very dangerous!

* Successive kicking

You get special high scores for kicking down several bad guys in a row.

* Grabbing the coins

Earn points by grabbing the coins that come out of the pipe when a character is kicked down!

* Test your skill on the bonus round.

Grab all the coins within the allotted time and you will be awarded a perfect score bonus on top of the regular coin points!

Extra pointsWhen your score passes 20,000, you will be given an extra Mario (or Luigi).

Beware!Mario (or Luigi) disappears if he bumps into or is hit by a bad guy (including fireballs and freezies). When all Marios (or Luigis) are used up, the game ends.

Phase numbersAfter each round, the phase number is indicated in the lower left corner of the screen. You can compete to see who gets the highest phase number or the highest score!
