# SKIING

---

**(FOR 1 TO 6 PLAYERS)**

The slopes are groomed. Skiers are at the top of the course. It's the first run of the day. Push off to start the race. Blitz through the downhill gates! Jump the moguls and look out for the trees! Keep the skis flat to build up speed . . . Then meet the challenge on the twisting slalom course. Dig in the edges through the hairpin turns. Timing must be precise. Race the clock . . . compete with other skiers! Best time in 3 heats—wins!

## **HOW TO WIN!**

Skiing is a game of skill and competition. To come up a winner, read this booklet.

## TWO SKI COURSES

THE DOWNHILL COURSE is designed for maximum speed! Skiers pass through gates a fair distance apart, jumping moguls, avoiding trees, while racing down the hill as fast as possible.

THE SLALOM COURSE is designed for precision skiing. Skiers must execute tight turns through the twisting course. Slalom is a longer course than downhill. The gates are closer together and there are no moguls. Slalom is a challenge to advanced skiers.

## PREP FOR THE RACE

### SELECT GAME SPEED

Downhill and Slalom can each be played at four different speeds. And each speed selection affects the overall game play. Press **1** for slow, **2** for slower, **3** for slowest, and press the **DISC** for normal.

### SELECT THE NUMBER OF SKIERS

After the game speed is selected, the TV screen shows:

**#SKIERS:**

Press **1** if you want to ski alone against the clock, or press **2** through **6** for the number of players entering the competition. Then press **ENTER**.

The skiers are identified by color, and always ski in the same order. The starting order is blue, red, tan, green, light green, yellow.

### SELECT THE SLOPE

Next the TV screen shows:

**SLOPE:**

Steepness determines how fast the skier accelerates as he skis downhill. The flattest grade is 1 and the steepest is 15. There's a greater chance of losing control on a steeper slope. So we suggest that beginners start with slope 4. After you've gained confidence, move up to the steeper hill. Enter slope **#** and **ENTER**. For example, if you choose slope 10, press **1** and **0** and **ENTER**.

## SELECT THE COURSE

Finally, the TV screen shows:

# COURSE:

Press 1 for downhill.

Press 2 for slalom.

Then press enter.

We suggest you begin with Downhill. Your skier is at the starting gate, and it's the first of 3 heats!

## LEARN THE COURSE

### EXECUTE TURNS

Press the **DIRECTION DISC** to start your skier downhill. Get a feel for the controls and learn the course. Don't worry about making the gates. Just ski freestyle, avoiding trees and moguls!

**To turn your skier:** Your skier turns in a circular motion. Press the **left side** of the Disc and your skier turns clockwise. Press the **right side** of the Disc and your skier turns counterclockwise. When you keep the Disc pressed in, the skier rotates in a full circle.

Release the Disc and the skier stops turning and goes straight ahead in the direction he's facing.

If you release the Disc when the skier is in a backward position, quickly turn him around or he'll fall.

Skier pointed uphill. Push right side of Disc straighten him out.

Skier pointed uphill. Push left side of Disc to straighten him out.

**Slow down or stop:** Just like the real thing, your skier gains speed until he makes a turn. To slow down or stop, turn the skier uphill or parallel to the top of the TV screen. To speed your skier up, just point him downhill!

## SHARPEN YOUR TURNS

Your skier may need to turn sharply to make a gate, or avoid an obstacle. To do this, press the **UPPER ACTION BUTTON** at the same time as you press the **DISC**. The skier slides through the turn. Release the Disc and Button and the skier goes straight ahead in the direction he's facing.

Press Disc and Upper Action Button. Release and skier goes straight ahead.

## JUMP THE MOGULS

There's a mogul ahead. Ski around it or jump it! Timing is very important. Jump so that the skier touches down right after the mogul. If the jump is too early, the skier will land on the mogul and fall. Press the **LOWER ACTION BUTTON** to jump. Since you can't control the skier in mid-air, it's important to get him into position for the next gate quickly after landing!

## START THE RACE

**1. Activate Screen.** Tap the Disc once (or tap 1, 2, or 3) for game speed. The Prep for the race appears on your TV screen.

**2. Prep for the race.** Enter the number of skiers and **ENTER**; choose the hill steepness and **ENTER**; and press **1** for Downhill or **2** for Slalom and **ENTER**.

2 skiers — slope 10 — downhill course!

2 skiers are racing, 1st heat. Blue skier at starting gate!

If you hear a buzz and the number you press doesn't appear on the screen, be sure that you have pressed Enter. Then try again. Also if you enter a number you want to change, press **CLEAR** before you press Enter. Then enter new # and Enter.

**3. Make a gate.** The first skier is at the starting gate. There's good visibility on the course! When you're ready, press the DISC and the skier starts down the incline. The clock starts and the race is on! Make it through the first gate! The left flag changes color. Now quickly get into position for the next gate.

Skier made it through the gate.

**4. Ski flat out!** Keep your rhythm through the gates. Here comes a mogul — jump! Your skier is out of control and careening toward the trees . . . Quickly tap the Disc and get him back on the course.

Get the skier back on course and through the gate.

**5. Over the finish line.** You've made it down to the bottom. The finish line is on the approach. Check your time.

Time for this run shows at the finish line.

## TIMING THE RACE

Each skier has 3 chances for the fastest time. Skiers all race in order through Heat 1, then 2, then 3. A clock records the time from the start of the race to the finish line! The final time also reflects a 5 second penalty for each gate you miss.

The time for each race appears at the finish line. The best time then appears at the starting gate.

## LOSING PRECIOUS TIME

You lose time when you fall. And you'll fall if your skier hits a tree, skies over a mogul without jumping, turns too sharply, or skis backwards. If your skier falls, press the Disc and get back on the course as quickly as possible.

Slow down and you'll also lose time. When you hit a flag, it breaks and your skier slows down. When you turn your skis uphill or parallel to the top of the TV screen, the skier slows down.

Skier hits flag,  
slows down.

## WINNING TIPS

Quickly reach full speed on the Downhill Course. The momentum helps you get smoothly through the turns.

Minimize turning on Downhill. This costs you speed. Pick a line to take you to the next gate instead of making lots of small turns.

In Slalom when the gates are close together, turn uphill out of the first gate to get into position for the second gate.

If any part of the skier passes between the flags, the skier gets credit for making the gate. So you can go beyond the gate and up through the bottom and it will count.

If you think it will take more than 5 seconds to make a gate (penalty time for missing it) skip it!
