SLOTS

The slot machine buttons allow you to play one credit, three credits or to cash in. The handle may be manually *pulled* if you insert coins one at a time. Click on the handle to pull it.

VIDEO POKER

You may bet from one to five coins by clicking the appropriate button. After the first five cards are dealt,

indicate which cards you would like to keep by clicking on the appropriate hold button or on the card itself. You may draw only once and will be paid for all hands which contain a pair of Jacks or better.

BLACKJACK

You play against the dealer. Closest hand to 21 without going over, "*busting*", wins. A standard 52 card deck is used and the deck is reshuffled when approximately 10 cards remain.

SEVEN CARD STUD

Each player antes and receives three cards, two face-down and one face-up as their starting hand. The player with the lowest card showing must start the action with the required forced bet, but may also bet a larger amount equal to the limit for the game. The next three cards, after the starting hand, are dealt face-up and there is a betting round after each card is received. The 7th and final card is delivered face-down.

TEXAS HOLD'EM

First, each player receives two cards face-down. Five cards, called the "*board*", will be dealt face-up to the center of the table and shared by all players. The first three cards of the five, called the "*flop*", are delivered all at once. The next card is delivered alongside the flop and is called the "*turn*." With the turn the betting goes to the higher limit. The final card is now dealt face-up on the board. In Texas Hold'em, players may use any five of the seven cards to form their best poker hand.

OMAHA HOLD'EM

Similar to Texas Hold'em, each player is dealt four cards face down and 5 common cards are dealt to the board. When the hand is over, each player must use EXACTLY two cards from his hand and EXACTLY three from the board of five cards dealt.

SATELLITES

The satellites are 9 player table freeze-outs, you play until you're out of chips or have everyone else's. The satellites have a buy-in of \$1,125 and the winner earns a \$10,000 entry into the World Championship event. The game is No-Limit Texas Hold'em.

THE WORLD CHAMPIONSHIP - THE \$10,000 BUY-IN MAIN EVENT

You will be eligible to enter the tournament as soon as you have accumulated \$10,000 or more. Play in the Championship will continue until you are eliminated or have won the event. If you quit, your game will be saved and you may return to the tournament where you left. By winning the World Championship event, you join the ranks of some of the finest players in the world. Like them, you will have taken on the best in the world and come out on top. A custom gold bracelet, engraved with your initials, will forever signify your accomplishment. Good luck, may the best player win!
