Overture of Death - Why does man wage such savage war?

The World of Drakengard

It is an ancient time, and dragons still roam upon the earth. Two great powers, the Union and the Empire, wage fierce war for the control of a goddess who protects the harmony of the world. Hidden in three sacred places scattered throughout the world are the great seals. A fourth seal, which unites and protects the others, is embodied in the life of a single woman. This woman is called the goddess.

The legends say that should these seals be broken, the gods themselves will sow upon the earth the Seeds of Resurrection. Some claim that these seeds will bring forth the salvation of all mankind.

The Goddess

Upon the goddess's soul lies the awesome weight of the seals, a weight that inflicts torments so great that her very flesh seems to be torn asunder. But the continuity of all reason and order in the world rests on her life, and she can do naught but suffer in silence under the burden of her great duty.

Only with death does the goddess's task end. At the moment of her passing, omens and portents appear throughout the world, identifying the next young woman who is to become the bearer of the seal. None can refuse this sacred duty; it is an evil nightmare that must be repeated, again and again, for as long as mankind still lives.

The Union and the Empire

Against the vast and awesome Empire stands the Union, an alliance of nations great and small. The Union protects the goddess, and for many years the two rivals have matched each other in strength and power. But now the Empire has gathered demons and monsters to its cause, its military might has grown powerful beyond reckoning, and it seeks to make the entire world its own. The balance of power has crumbled...

The Cult of the Watchers

It is rumored that behind the baneful machinations of the Empire lies the enigmatic religious order known as the Cult of the Watchers. Though the Cult's murky origins remain wrapped in mystery, the dogma of the Cult has infested all levels of society. More crazed zealots swell the ranks of the believers with every passing day.

Prelude to Madness - Destiny's cruel cogwheels begin to turn

REVENGE

The son of royalty, Caim was forced to witness the brutal murder of his parents by an Imperial black dragon. Since then, his hatred for the Empire has grown ever greater, and he now lives only to wage war against it as a soldier in the army of the Union. In his face and eyes there burns a cold, grim determination.

Sex:	Male
Age:	24
Pact-beast:	Red dragon
Pact-price:	Voice
Location of Ma	rk: Tongue

In the center of the war's bloody maelstrom stands a warrior named Caim. He was the prince of a small kingdom, until his parents were cruelly murdered and his nation was destroyed by the red-eyed dragons of the Empire. Now he seeks his revenge on the battlefield in the service of the Union.

One day, in the midst of a ferocious battle with the minions of the Empire, Caim hears that his army's own castle is under attack. Within the castle is his sister Furiae, the goddess whose duty is to protect the seals of the world. It is the desire to control her that drives the Empire to wage its wicked war. To protect his sister, Caim hurls himself, alone, at the swirling mass of Imperial soldiers.

CHARACTERS

The dragon is a supremely dignified and superior beast; she believes that she need merely raise her voice to have any creature quail before her. Dragons are acknowledged by other creatures to be lords of the natural world, charged by the gods to advance evolution by applying their "trials" and destroying all those too weak to deserve life. As creations of the gods, dragons will survive any trial that the gods choose to impose upon the world.

Sex: Female

Age: 10,000 years (exact age undetermined)

Chains of a Pact

Revenge's passion overcomes hate, and a dragon becomes the warrior's steed.

Breaking into the castle through the closing net of the Imperial army, the mortally wounded Caim encounters a shocking spectacle. Before him, captured and fettered by the Empire, is a crimson dragon, a creature of the same breed that slew his parents. Eyes made blind by rage, Caim lifts his sword to strike dead the hated beast.

RAGON

"Kill me if you desire ... " whispers the dying dragon.

Caim pauses, his sword still raised to deliver the death blow. And at that moment, he makes the decision to live, and demands from the dragon a pact. Though the pact-price he must pay is undeniably great, a union with the dragon would not only allow him to survive; it would afford him the power to exact his terrible revenge on the Empire.

When a human and a beast exchange hearts and forge a pact, they become "pact-partners." It is said that a human and his or her pact-beast are equal in strength to an entire nation's army, but only a select few may ever be worthy of tasting such power. The human must pay a terrible price for a pact by sacrificing a treasured function of his or her body.

But the mighty dragons comprise a noble race that does not easily submit to the dominance of another. Even though captured and on the brink of death, the dragon's pride is still strong.

"Tell me. Do you still want to live, dragon? A pact! There's no other way."

Caim will not be denied, and little by little, the dragon begins to consider. For a moment that seems like an eternity, the two proud adversaries glare at each other. Then the dragon makes a decision.

"Yes. A pact ... "

Caim and the dragon exchange hearts, and the pact is sealed. From now on, dragon and warrior will, for good or for ill, share the same fate.

Transformed into a rider of dragons, Caim turns toward a battle in which is wrapped the fate of the goddess and of the whole world.

CHARACTERS -

LOST HOPE

Furiae is Caim's sister. Raised as a royal princess, she struggles to come to terms with her appointed role as the goddess. With a melancholy affection for her brother sealed deep within her heart, she now passes her days in near solitude with only sad prayers to keep her company. Her sheltered upbringing has left her incapable of defending herself, and she must rely on the kindness and strength of those around her.

Sex: Female Age: 19

At the age of fourteen, the portents led the hierarchs to name Furiae as the next goddess, and her life was transformed irrevocably. Her kingdom was lost, her parents were murdered, and the burden of serving as the goddess was placed upon her. As her cursed fate unfolded, Furiae despaired of all hope.

As fate would have it, her brother joined the Union; Furiae was taken to his castle to be protected by Union forces. Yet Furiae has lost all attachment to her earthly life. Even as the battle for her rages around the castle, she can only sit quietly and offer up silent prayers.

OVE AND HATE

Inuart is the son of a nobleman from the kingdom once ruled by Caim's family. Inuart has a beautiful singing voice and is a master of the harp. Though sincere and honest, his heart is weak. When times become precarious and the situation turns grave, he must have someone to cling to lest he collapse into ineffectual despair. The one he relies on the most is his former betrothed, Furiae.

Within the castle, a man stands by Furiae and fights for her life. Invart was Caim's boyhood friend and was to be the husband of Furiae – until that awful day when she was named as the goddess. But even as their wedding became an impossibility, his love for her grew all the more powerful.

Though Inuart strives to be the strong-nerved warrior his childhood friend became, he knows that next to Caim he is little more than a weak child. His complex feelings toward Caim and his hopeless love for Furiae will later lead him into madness.

CHARACTERS

Different Fates - None can escape their own destiny

Verdelet is the one hierarch whose duty allows him to speak directly with the goddess. Though he controls no military power, he is a powerful authority within the Union. Verdelet is a pious man who is always careful to say and do the correct thing, but his selfishness and sense of self-preservation come to the fore when the situation becomes dire. When young, he made a pact with a dragon that now only lives on in petrified form. Verdelet himself has no ability to fight.

LEONARD

Upright and just, Leonard is a kind soul who abhors the bloodshed of war. But despite his inherent decency, he is tormented by the knowledge of his faults and past mistakes; he places all blame for the death of his brothers upon himself. The factic takes advantage of his instability to force a pact upon him. Leonard is very fond of Seere – perhaps because he reminds him of his brothers – and works hard to protect him from all enemies, including, of course, Arioch. He somewhat unwillingly battles the Empire at the side of Caim, his ally.

CHARACTERS

ARIOCH

The elf Arioch was a loving mother and wife until she was driven mad by the murder of her family at the hands of the Empire. Since then, she has become an insatiable murderess who targets any child she finds. She feels no guilt for her murders, only a pure joy as her young prey fall victim to her insanity. Always seeking to make Seere her next victim, she is a very dangerous ally indeed. It is unclear as to exactly why Verdelet accepted her into the party.

SEERE

Adored by his mother. Seere grew up bathed in affection, and as a result he feels strong guilt about the neglect of his twin sister. Manah. Perhaps that is why he is able to endure even the most brutal mistreatment. A good child who always behaves well, there is nevertheless an element of "poor me" in his character that leads him to deny responsibility for his misdeeds. He joins Caim's party to search for his lost sister.

6 Golem Time Whole Body

Pulled by the callous strings of fate, a band of allies gathers about Caim. Verdelet the hierarch, the only priest empowered to speak to the goddess. The hermit Leonard, wracked by guilt and bereft of hope. Arioch, the mad elf. Seere, the child who bears the weight of a tragedy of which he is innocent. To each of them is bonded a pact of awesome power. Even as the Empire's might grows, they will journey and battle alongside Caim, each seeking their own solace.

CHAIN BONUSES

Grab the spheres!

Every time you finish a combo, the number of successful hits is tallied. You will receive experience points based on this number. Furthermore, achieving a certain number of hits causes a sphere to appear nearby. Spheres have a variety of helpful effects. Some spheres replenish your health, while others can wipe out nearby foes with a surge of destructive power.

Defeat the commanders!

Enemies on the ground are organized into units, each led by a commander. A circle appears next to a commander's health. By defeating the commander, you can sow confusion among the subordinates, thereby reducing the unit's combat effectiveness. Eliminate commanders early in the fight to gain an advantage.

WEAPONS

Weapons with Magic

Weapons with magic attacks affect your attack capabilities in two important ways. Let's take a look at these unique characteristics.

MAGIC ATTACKS

When the MP gauge begins to blink, this means that you can execute a magic attack using your equipped weapon. You gain MP by striking enemies.

Replenish MP

WEAPON LEVEL

Weapons thrive on the blood of your enemies. As a weapon grows with use, its shape may change, and the weapon will become stronger. Its attack strength and number of combo hits may increase – as well as the magic power inherent to the weapon.

> More attack strength More magic power More combo hits

There are several types of weapons, such as long swords, axes, and spears. Below are two examples of the weapons that will become available during the course of the game:

Glory's Bane

This weapon inflicts light damage, but it allows the wielder to turn quickly. Glory's Bane contains the magic attack known as Damocles' Strike.

Foul Blade

Though vulnerable to counterattacks due to its weight, this axe can inflict great damage. Its Eye of the Salamander magic attack shoots a fiery blast at surrounding opponents.

SKY BATTLES

Strike at multiple enemies!

When in an aerial battle, you can use the dragon's sights to execute guided attacks. Normally, you cannot attack when the sights appear blue. Once the enemy is in range, the sights will change to red. You can then lock on to targets you have caught in your sights. Hold down the **()** button as you move the dragon. The sights will lock on to enemies. Release the **()** button to attack each enemy.

Lock Marks Display the number of enemies vulnerable to target lock. As your dragon evolves, it can lock on to greater numbers of enemies.

DRAGON GROWTH AND TRANSFORMATION

As dragons grow, so does their power.

After forming a pact with Caim, the dragon grows and changes. As it grows, its fiery breath intensifies.
