RUNNING

- START Button * Begins/Pauses game
- SELECT Button * NOT USED
- CONTROL PAD * Directs Dr. Gilgamesh
- Y Button * Fires normal weapon
- B Button * Jumps
- A Button * Fires normal weapon without moving.
This enables Dr. G to fire in all directions while standing still.
- X Button * Fires Special Weapon (when available)
- L Button * Selects Special Weapon (when available)
- R Button * Selects Special Weapon (when available)

JET-BIKE

- CONTROL PAD * Directs Dr. Gilgamesh
- Y Button * Fires in same direction as Jet-bike
- A Button * Holding locks fire in a set direction

➡ To climb (or attempt to climb):

Use the **CONTROL PAD + B** (jump) to jump onto the wall you wish to scale. Once on the wall, press **up** or **down** on the **CONTROL PAD** to ascend/descend. To exit the wall, use the **CONTROL PAD + B** to jump off.

➡ Running vs. Fighting

“He who fights and runs away, lives to fight another day.”

While destroying things is a great release, your main objective is survival. In some cases, it may not be practical (or possible) to destroy everything in sight. Don't forget that your TGS is constantly decreasing and although you may have picked up every possible crystal, even one unnecessary stop could cause it (and you) to expire!! In order for you to complete your mission, you may want to practice dodging things as well as hitting them.

NOTES

↳ Extra Lives

If you are able to pick up an extra Battery at any time in which your Time Suit Power Meter is fully powered (at 5), the Power Meter will revert back to one and you will be awarded an additional life.

↳ Special Controls

Pressing down on the **CONTROL PAD** will allow you to dodge most enemy fire without leaving the ground. Nevertheless, be sure and watch your feet!!

To fire below you (which is particularly helpful when trying to open shafts), press the **B** Button to jump. Then, while in mid-air, press down on the **CONTROL PAD + Y** to fire.

↳ Climbing

If you appear to be stuck at a "dead-end", try scaling the wall. In most cases where climbing is possible, you will see the ends of the ladder rungs running vertically down the edge of the wall. There are times, however, where climbing is possible although no ladder appears.

SPECIAL ITEMS

RUNNING

■ TIME CRYSTAL

Adds energy to your Temporal Guidance System [TGS]. If you are unable to keep this at a reasonable level, your Time Suit will fail and you will lose one life.

■ CRATE

Destroying these will allow you access to one of the following items:

■ BATTERY

Increases your Time Suit Power Meter. If this power runs out, you will lose one life.

■ SHIELD

Collecting this will immediately create a triangular forcefield, temporarily protecting you from both enemies and enemy fire.

■ TIME BOMB (TB)

Slows down surrounding action temporarily.

■ SHOT

Increases your normal firepower.

The following Special Weapons may be stockpiled for later use but will not carry over from one level to the next. You will, however, receive bonus points for any leftovers.

■ **GRENAD (GA)**

These can be lobbed to either side and are helpful in hitting enemies in hard to reach places.

■ **BAZOOKA (BZ)**

Provides an extra-heavy blast to either side, but it must hit an enemy to be effective.

■ **BUBBLE BURSTER (BB)**

Probably the most powerful, this weapon bursts into five "time bubbles" upon contact. These bubbles then spin outward causing damage to everything they hit, in most cases destroying them. Like the Bazooka, it may be fired to either side but must hit an enemy to activate.

To select a Special Weapon for use, press either the L or R Buttons to highlight the desired weapon and press the X Button to fire.

JET-BIKE

During the Jet-bike sequences, you may collect pick-ups as they appear by flying into them. The pick-ups and their functions are as follows:

■ **BATTERY**

Increases Time Suit energy (see above).

■ **SMART BOMB**

Detonates on impact destroying everything on screen.

■ **3-WAY GUN**

Increases fire power.

■ **SCORE**

Worth 1,000 bonus pts.
