TRAPS AND BONUSES

Various devices are set up in the maps which form each Round. They will either help you make it through the maze, or hinder your actions.

Arrow Blocks - These point in the direction way you should move in.

Distance Blocks - These are pointers for the distance left to the Goal. The smaller the number, the closer you are to the Goal.

Timer Down - If the ball hits one of these "X's", the timer is reduced (yellow: minus 2 seconds, red: minus 5 seconds).

Bumpers - If the ball hits one of these, it is flipped away.

Bricks - Build up speed to break through these obstacles.

Time Bricks - Smash one of these to increase your time! There are two types, plus 3 and plus 5.

Timer Down Bricks - Breaking one of these reduces your amount of time for that Round. There are two types, minus 3 and minus 5.

Score Flag - Touch this with the ball to earn 1,000 points!

Mystery Bricks - Breaking one of these produces various results including:

- Timer +3
- Timer +5
- Score +1,000
- Timer Stops for 5 seconds
- Hard Luck! (Nothing happens)

PLANES

On The Ball has four “Planes” with varying compositions and levels of difficulty. Each Plane has four Courses, and when you clear all of the Courses you move on to the next Plane. For each Plane a password is displayed. By keying this in at the start of the game, you can return to the action at the next continuing Plane even after turning off the power.

SCREEN DISPLAYS

CLEARING ROUNDS

If you reach the Goal within the time limit, you clear the Round and move on to the next one. If you clear the Round within 10 seconds of the time limit, a Slot Machine appears. The reels of the **Lucky Chance Slot** automatically begin to spin, press the **B Button** to stop them.

The total of the values shown after the reels stop is added to your timer in the form of bonus seconds. There is no Lucky Chance Slot in the Special Course or Master Course.

Each time a Round is cleared in the 2-Player Mode, the player who had the fastest lap time is given a time bonus of 5 seconds. There is no Lap Time Match when either of the players have finished the game. Like above, no bonus time is added in the Special Course or Master Course.

TIME UP

When the timer reaches zero during the game, time is up and you move on to the **Number Match**. In the Number Match, a cursor moves randomly across 10 digits at the top of the screen. Stop the cursor by using the **B Button**. If the number you stop at coincides with the number at the bottom of the screen, an additional 20 seconds will be added to the level you were just in. The Number Match appears only once per Round.

Game Over - If you lose at the Number Match, or reach Time Up a second time after winning the Number Match, the game is over. When the game is over a Continue screen appears, giving you can select Yes or No. If you choose Yes, you start from the beginning of the Round in which the previous game finished.
